

Who  
Likes  
Fruit?

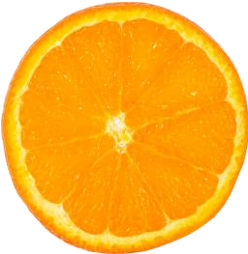

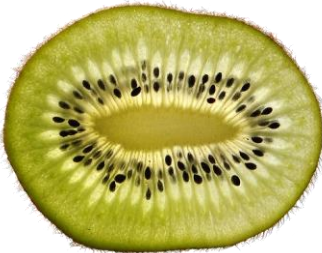

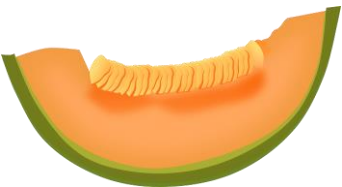

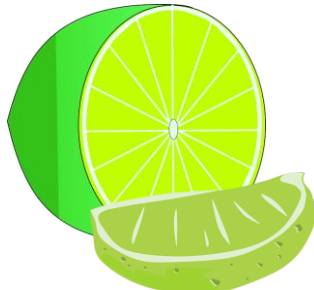

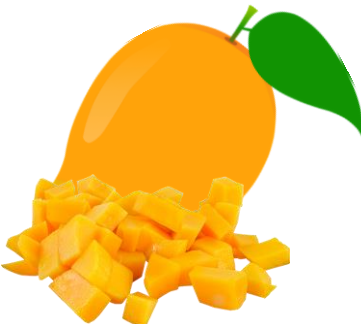

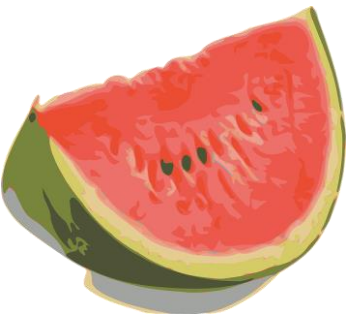

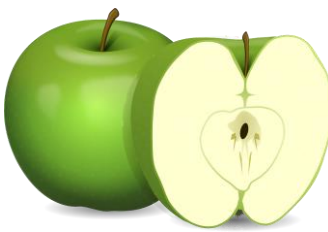

I Like  
Fruit.

Learning  
guide

Yellow	Orange	Red	Blue or purple	Green

Before reading for the first time, ask student to predict what color covers the most fruits. Read through, ask student if they want to revise their hypothesis. Going through the book or using fruit cards or real fruits, have student categorize the fruits by color, Which fruits come in more than one color?

Yellow	Orange	Red	Blue or purple	Green
				
				
				

Fruit cards. Use for color sort. Run 2 copies and use for a matching or old maid style game

Fruit	Raw	Dried	Cooked	In a drink

## Teacher/student activity How do you like to eat your fruit?

List 5 fruits you like to eat. Then check off all the ways you like to eat that fruit. Use one color marker or pencil to do this. Then ask 2-4 other people, using different color markers or pencils. Which way was most popular? Least popular?

Fruit	SINK	FLOAT	Fruit	SINK	FLOAT

## Teacher/student activity Will it sink or float?

Check out one of these links for a lesson on what fruit sink and what fruit floats.

[https://www.himama.com/learning/child-activities/activity/fruit-sink-or-float#:~:text=\(In%20general%2C%20apples%2C%20bananas,%2C%20and%20mangoes%20will%20sink.\)](https://www.himama.com/learning/child-activities/activity/fruit-sink-or-float#:~:text=(In%20general%2C%20apples%2C%20bananas,%2C%20and%20mangoes%20will%20sink.)) includes peeled vs not.

<https://www.education.com/science-fair/article/fruits-vegetables-denser-than-others/> More advanced and includes determining the mass of the fruit.

SEE	HEAR	FEEL	SMELL	TASTE

**Pick three fruits.** Let students observe each with the 5 senses. Scribe for the student as they describe how the fruits look, feel, smell and taste. Hearing observations work for melon type fruits. Pineapples and Kiwi provide unique touch opportunities for skins, while the interior of fruits may vary based on pulpiness. Ripe fruits often smell differently from unripened.

# Desk Top Crop activity

TELL students that they will plant a desktop crop to see what plants need and how they grow from seeds.

Use a clean lid from a peanut butter jar or a plastic soup-cup lid.

Fit a paper towel folded double or triple into the lid, covering any tiny holes.

Moisten the paper towel with a spray bottle filled with water. You don't want it too wet.

Sprinkle seeds on the paper towel.

Cover the lid with a piece of aluminum foil to block the light and allow seeds to germinate.

Check your garden every day until you see little shoots growing, then remove the cover. Once the seeds have sprouted, place them in a sunny location and water regularly.

Have students record their observations on Days 5, 10, and 15 on their Desktop Crop Observation Sheet. You may choose to do this more often or incorporate measuring the height of the sprouts in cm each time.

OPTION: Use a paper egg carton which can be planted intact into soil. Talk about recycling and reusing to be good stewards of resources.

## Activity: Making raisins

Follow the steps below to make your own raisins:

1. Wash the grapes and spread them onto a pan or plate (they tend to roll off cookie sheets). Make sure grapes are not touching one another.
2. Place in a sunny spot outdoors so your grapes can dehydrate. Make sure they are safe from birds and other animals. (Put a towel over them to protect them from pests.)
3. Turn the grapes from side to side twice a day to keep them from sticking.
4. In 3-7 days, the grapes will change into raisins. (How long it takes depends on direct sunlight, the type of surface under the grapes, and humidity. If your area experiences high humidity levels, you can dry your grapes in a dehydrator or oven. Set your oven for 160° F and leave the grapes to dry for up to 7 hours. Check the progress each hour and turn the grapes frequently to avoid sticking.)
5. OPTION: Use 2 or more different color grapes to see what color the raisins turn out. Make sure to label the different types.

The fruit of the Spirit

is love, joy, peace,

patience, kindness,

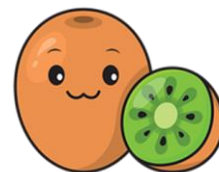

goodness, faithfulness,

gentleness and

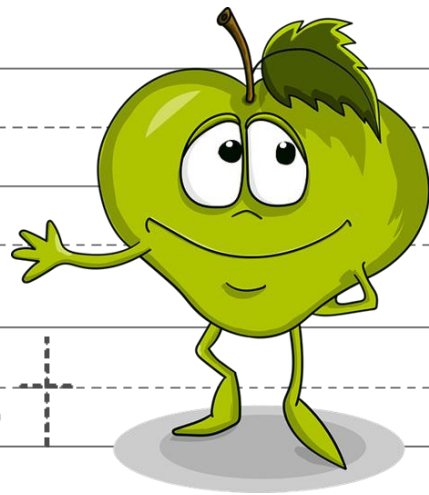

self-control.

Galatians 5:22-23

Matthew 7:18

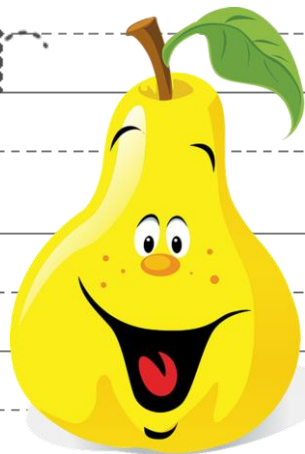

A good tree cannot

bear bad fruit, and a

bad tree cannot bear

good fruit.

John 15:5 Jesus said,

"I am the vine, you

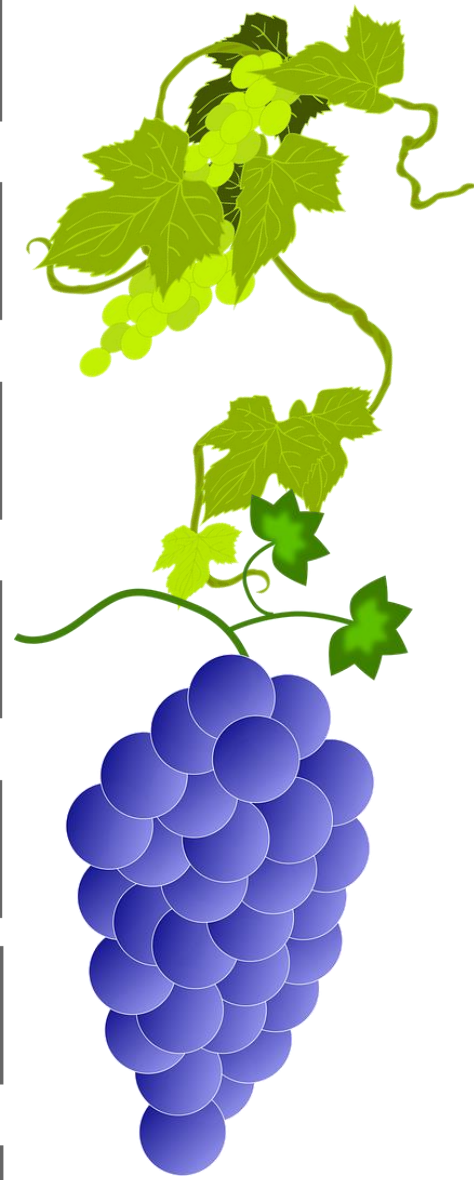

are the branches. If

you remain in me and

I in you, you will bear

much fruit, apart from

me you can do nothing."

Colossians 1:10 Live a

life worthy of the

Lord and please him in

every way: bearing

fruit in every good

work
