

Pink Silk

CHARACTERS: A, B

SETTING: bare stage

RUN TIME: 1 minute

SCRIPTURE/BASED ON: Matthew 4:4

At rise: A and B are drinking milk.

A: Too bad brown cows don't give chocolate milk.

B: Yeah. Did you know pink silkworms do produce pink skeins of silk?

A: How?

B: Scientists feed ordinary silkworms mulberry leaves sprayed with fabric dye called "direct acid fast red". When they spin their cocoons, they're pink.

A: So what they fed on changed the color of the silk they produce?

B: Yup. Their silk comes out a cotton candy pink and it doesn't wash out. Pretty cool, huh?

A: That reminds me of Matthew 4:4. Jesus said 'Man shall not live on bread alone, but on every word that comes from the mouth of God.'"

B: So what changes about us if we feed on God's word? We don't change colors, do we?

A: No, we act differently because God is in us. When people see our good deeds, they glorify God and give him the credit.

B: How do you feed of God's word?

A: Read it, study it, memorize it, but most importantly, let it change you from the inside.

B: Sounds like a plan to me.
