Budget	Students completed the budget, showing accurate work and revision where needed. Students spent less than budgeted to complete tower.	Students completed the budget, showing mostly accurate work and some revision where needed. Students spent less than budgeted to complete tower.	Students completed more than 50% of the budget but needed several interventions to complete or stay on task. Students spent more than budgeted to complete tower.	Less than 30% of budget completed or less than 30% was accurate.
Tower	Tower was 18" or more tall from pen cap to base.	Tower was less than 18" tall	Tower begun	No Tower constructed
Problem-solving	Group actively looks for and suggests solutions to problems. Members listen to, share with, and support the efforts of others.	Group usually looks for and suggests solutions to problems. Members listen to, share with, and support the efforts of others most of the time.	Group accomplished some of the tasks and members sometimes listen to, share with, and support the efforts of others.	Group did not complete tasks. Members rarely listen to, share with, and support the efforts of others.
Math Skills	Select appropriate methods and tools for computing from among mental computation, estimation, calculators, and paper and pencil. Math is accurate and there is evidence of checking computations.	With teacher assistance, members select appropriate methods and tools for computing from among mental computation, estimation, calculators, and paper and pencil. Math is accurate and there is some evidence of checking computations.	Most math is accurate and group checked computations with teacher assistance.	More than 50 % of the math is not accurate and there is evidence of checking computations.
Connections with Luke 14	All group members participate in discussion and demonstrate comprehension of correlation between budgets, building and Luke 14: 25-33.	Most group members participate in discussion and demonstrate comprehension of correlation between budgets, building and Luke 14: 25-33.	Most group members demonstrate comprehension of correlation between budgets, building and Luke 14: 25-33. May need connections pointed out explicitly by others.	Group members do not see connection between activity and Luke 14:25-33.
